

VIBE

Sunliner Motorhomes

A Motorhome with personality

The Vibe is a fun motorhome loaded with personality; just like its owners. This motorhome is all about embracing the joy and fun of hitting the open road. The fashionable interior and modern design features make this a statement motorhome. Now is the time for you to realise your adventuring dreams with the Sunliner Vibe.

So much compact quality at a competitive price

The Vibe's compact size makes it simple to drive. Whether you are a seasoned Motorhome owner looking to downsize or a first timer; the Vibe makes an easy choice.

The electric drop-down bed creates the light and space you need during the day with a comfortable bed at night without having to compromise on other essentials. The Vibe also includes a kitchen and bathroom, delivering you the freedom to go wherever your journey takes you.

Chassis & Layout

The Renault Master Cab Chassis has been ergonomically designed to ensure you feel as good at the end of the day as you did at the start. Driven by a powerful 2.3L Turbo Diesel engine that produces all the grunt you need while keeping fuel consumption to a minimum.

Renault Master X62

Engine	Power (hp/kw)	Torque (Nm)	GVM (kg)	Front Axle Capacity	Rear Axle Capacity	Gear	Fuel Tank Capacity (Litres)	Driven wheels	Tyre Size	Anti-Lock Brakes (ABS)	Traction Control	Stability Control	Roadside Assistance (varying duration)	Warranty Period (Years/Km's)
2.3L TD	148/110	350	4495	3200	3000	6 speed Auto	105	Rear	195/75R16	Std	Std	Std	Std	3/100,000

Length 7.1m

Width 2.5m

Height 3.3m

No one knows what works for you, better than you

You know what works for you, that is why at Sunliner we think you also know what you are looking for in a recreational vehicle (RV). Our philosophy is to listen and work with you to create your dream vehicle.

We understand that you want your new RV to feel like a home and we don't believe you should have to compromise.

Our vehicles do not come from an offshore assembly line, with a single mould for everyone. Each Sunliner RV is built in Australia by our skilled team who are excited to manufacture recreational vehicles tailored to your needs.

Sunliner is proud to be an Australian owned family business. We have been manufacturing outstanding motorhomes for over 40 years. It is our innovation and our attention to detail that sets Sunliner apart as Australia's premium brand of Recreational Vehicles.

We look forward to assisting you to personalise your journey.

- TV Bracket
- TV Antenna

What sets us apart

Rear to Tow, Front to Go.

Sunliner offer more layouts on a greater variety of chassis than any other.

Quality

Concealed spring assisted adjustable hinges are used for smoother assisted opening.

It's the things you don't see that counts.

Furniture is sealed around the floor so if you drop the milk it won't leach into the furniture.

Locked tight, made right.

Walls are rebated and interlocked for a stronger construction with more support.

Steel Sub Chassis

Stronger than a panel floor allows a strong foundation with less movement in the vehicle body. More secure mounting for walls, tanks & bins.

It's what you don't see that counts.

All Fibreglass fairings are neatly screwed & glued in a way that they can't be seen; giving a neater appearance and assists in a cleaner unit.

No Frame, More Gain

The innovative ThermoTough Wall, allows the unit to be built without a rigid frame. Mounting can be made at any point internally or externally directly into the seamless 12mm core.

Floor

One piece floor has no joins and is fully sealed underneath. Internal floor coverings are high quality and insulated.

ThermoTough™ Wall

The Toughest Walls on the Market

Sunliner's ThermoTough wall is a revolutionary design encompassing strength, durability and weight reducing properties.

- Lightweight European technology.
- One piece wall. No joins, No gaps equals greater strength.
- Popular cross ply/Duplo Foam core provides extremely strong panel with a high impact rating.
- Most repairs can be localised without replacing whole wall.
- All materials used in the process have a similar expansion rates.
- Walls can be screwed into at any point. No studs or fixing points necessary.
- Walls R rating is equivalent to those found in extreme alpine areas.

DuraRoof™

Strong enough to Party On

Sunliner's DuraRoof has been precision engineered to provide superior structural strength.

- Fully insulated bonded core.
- Reinforced timber structure combined with compressed Duplo Foam.
